Сложные проблемы

Jim Bringolf, President of LAN NET Solutions, finds that using LinkWare Live helps the company save time in several ways. One of capabilities the company appreciates is being able to create tests in advance, making the certification process much quicker once they are on-site. Uploading test results from job sites is also faster and easier with LinkWare Live.

Решение

LinkWare Live cuts costs and prevents errors by letting project managers check on testing progress, without being physically present. “That was one thing we were really excited about when we were working on a big project recently,” said Scott Hooks VP and Owner. “We had a total of 8000 tests for this particular job, and we were able to set up and name all of the tests ahead of time. Then, while testing was underway, we could check to see what percentage was done while we were sitting in the office.”
